American Skin Association

American Skin Association, founded in 1987, is a volunteer-led health organization dedicated to saving lives and alleviating the profound human suffering caused by the full spectrum of skin disease and cancer through cutting-edge research and education.

Through its national grants and awards program, ASA has awarded over \$6 million to support advanced-level studies into the cause, prevention and treatment of skin disease, funded the work of over 150 physicians and scientists ranging from acknowledged leaders in the field to gifted young researchers in the early phases of their career.

ASA has introduced over 3 million public school students from coast to coast to its award-winning program — *The Wonders of Skin*—to help them better understand the critical role of the skin.
