

American Skin Association (ASA) Daneen & Charles Stiefel Investigative Scientist Award for Melanoma Research \$100,000

ASA invites the submission of applications for its **Daneen & Charles Stiefel Investigative Scientist Award for Melanoma Research** in the amount of \$100,000. The purpose of this funding mechanism is to identify and support emerging leaders in dermatology focused on melanoma research.

All sources of funding must be disclosed by the awardee. If an awardee has received, or is soon to receive, a career development award or other comparable research award from the NIH, Dermatology Foundation, American Cancer Society, Melanoma Research Alliance, or similar organization, the awardee must choose between it and this research award. If the other award is chosen, any remaining installments of funding from ASA are forfeited.

The individual must have a strong career goal within the field of dermatology and be dedicated to the furtherance of knowledge concerning melanoma. The research must be focused on new discoveries in the basic or translational medical sciences that impact the understanding or treatment of melanoma.

ELIGIBILITY:

Preference will be given to those under the age of 45 as of June 30, 2022 with a rank of instructor through associate professor (or the institutional equivalent). First preference will be given to those working in a department or division of dermatology, and second preference to those with a close working relationship to dermatology.

If an MD, the candidate must be Board certified in dermatology with at least three years of in-depth experience in investigative dermatology. If a PhD, the candidate must have at least three years of postdoctoral or faculty-level experience in investigative dermatology.

The candidate must be identified as a current or future leader in dermatological investigation, and must spend at least 80% of his/her professional time in research.

CONTENTS OF APPLICATION:

An application **must** include:

1. **A letter from the applicant stating:**
 - a. A lay statement of 2-3 sentences describing the relevance of the proposed research
 - b. career goals and plans for achieving these goals
 - c. the relevance of the "bridge support" at this time
 - d. acknowledgment of the requirement to submit a progress report (written for a layperson) and an expenditure report at six months and at the end of the award period
 - e. acknowledgement of the requirement to list ASA support in all presentations and publications
 - f. acknowledgement to keep ASA informed of current and future dates of presentations and/or publications

2. A 1-2 page **curriculum vitae** including education and training, academic appointments, key publications, and date of birth.
3. A letter (no more than two pages) written by the **chair of dermatology** on behalf of the candidate, covering the above requirements, endorsing the applicant and the proposal, and confirming the institution's commitment to provide time and support to the applicant. Note: A chair may endorse only ONE ASA Investigative Scientist Award application per year.
4. A **research proposal** (no more than two pages including references) prepared by the candidate detailing the title, purpose, materials, methods, and projected results. Proposals must be typed in **Arial 11 pt. type with 1-inch margins**. Note: Human and/or animal use must be approved by the Institutional Review Board or equivalent and documented before funding begins.
5. A line item **budget and justification** for the research project must be attached. **Indirect costs to the sponsoring institution, travel expenses, salary and benefits are not permitted.**
6. A summary of ALL **past (5 years), present, and pending** research support specifying award titles, agencies, periods of support, and total direct costs.

DEADLINE AND APPLICATION FORMS:

Instructions and online application are posted on our website: americanskin.org. **The deadline for receipt of applications is Monday, January 31, 2022 at 11:59 PM EST.** Incomplete applications will not be considered.

SELECTION PROCESS:

Selection of the recipients will be made in April 2022 by ASA's Medical Advisory Committee. Funding will begin in 2022. Please note: No cost extensions will not be granted.

About American Skin Association

Established to serve the now more than 100 million Americans afflicted with skin disorders, ASA has evolved over three decades as a leading force in efforts to defeat melanoma and other serious skin diseases. Its mission has remained to advance research, champion skin health, and drive public awareness about skin disorders.
